

## **Behaviour for Learning**

**Facilitator: Sheila Guise, Associate, Karen Ardley Associates**

This one day programme for primary practitioners will explore approaches and strategies to ensure the behaviour of all pupils is focused on learning and progress. It will provide the opportunity to reflect on and review your current responses to any disruptive or inappropriate classroom behaviours and to identify effective approaches to ensure on task behaviour and positive relationships for all pupils.

Using the techniques explored in the programme you will be able to maintain a calm and purposeful classroom climate where every learner is engaged and productive
